

# Natural Hazard Mitigation Plan

## New Annexes to Lane County Multi-Jurisdictional Plan

September 2024 Update

### *Complete our public feedback survey!*

Public Feedback Survey

- City of Eugene (COE), City of Springfield (COS), Eugene Water and Electric Board (EWEB), and Rainbow Water District (RWD) are preparing to add annexes to the Lane County Multi-Jurisdictional Natural Hazard Mitigation Plan (MJNHMP).
- Before we finalize our work, we are gathering input (scan the code) from residents on which hazards should get priority for mitigation investments.
- Survey submissions will close on September 22. Thanks for weighing in!

### *Learn more about our Natural Hazard Mitigation Plan!*

- Hazard mitigation planning **reduces loss of life and property by minimizing the impact of disasters**. It begins with state, tribal, and local governments identifying natural disaster risks and vulnerabilities that are common in their area.
- COE, COS, EWEB, and RWD have participated in NHMP processes for 15 to 20 years. We are now transitioning to join the Lane County MJNHMP as individual agency annexes. Our draft annexes can be viewed from the public feedback survey page.

### *Protect your Property!*

[www.ready.gov/](http://www.ready.gov/)

- Mitigation is an action to reduce the loss of life and property by lessening the impact of disasters. Mitigation can keep natural hazards, like flooding and hurricanes, from having catastrophic impacts.
- Not all disasters can be prevented, but there are proven strategies that can reduce damage to your home or business from a disaster.
- Before you mitigate...know your risk! Consider your options for general protective measures. Check out the resources at Ready.gov
